Andrew Lofgren

Lincoln, NE • (402) 937-2838 • andrew.lofgren164@gmail.com Portfolio: alofgren7.github.io/portfolio.github.io • GitHub: github.com/alofgren7

Experience:

Software Developer — Sandhills Global *May 2025 – Present*

- Develop an internal C# Model Context Protocol (MCP) server integrating Tableau with an internal AI system, designing tools and defining tool descriptions, instructions, and usage guidance to enable conversational business intelligence
- Contribute to an internal Python framework for reusable Tableau data sources and develop an AI agent to assist with converting data-source implementations from a deprecated .NET tool to the Python framework
- Build more than 100 Tableau data sources with the internal Python framework, integrating hundreds of database stored procedures, external API endpoints, MinIO, and Neo4j to support company-wide analytics and visualizations through full and incremental refresh workflows
- Enhance and maintain a C#-based, Dockerized automated email service that processes hundreds of thousands of CRM leads, applies eligibility rules, and routes targeted outreach to sales representatives using country-specific fallback logic

IT Co-op — ContiTech *April 2024 – April 2025*

- Built Power BI analytics and visualizations while developing Mendix applications and PowerShell scripts to support plant operations
- Managed systems administration projects spanning technology deployment, application development, and server organization

R&D Co-op — ContiTech *May 2022 – April 2024*

- Built two full-stack Python applications integrating Microsoft Access and Excel to automate rubber recipe weigh-up document creation and analyze recipe costs across the Lincoln and Norfolk plants

Skills:

Primary Stack: Python (2019–Present), C#/.NET (2022–Present), SQL/SQL Server Management Studio (SSMS) (2022–Present), React.js (2025–Present)

Technologies: Tableau, Model Context Protocol (MCP), Docker, REST APIs, Neo4j, MinIO, Pandas, scikit-learn, Jupyter, Git/GitHub, CI/CD, ETL, Agile

Education:

University of Nebraska–Lincoln Bachelor of Science in Computer Science • Minor in Engineering Leadership
